

Monitor with scale at 100%, this is the right behaviour:

Monitor with scale > 100%

bugs:

- the position of Popup window is not correct
- the components inside the TPanel are not scaled properly (in example TDBAdvOfficeRadioGroup but the same bug is present with TEdit or TButton any other components)

Main display

Display resolution: 3840x2400

Scale: 250%
